Description: Magical Moment around the World is a global educational project dedicated to inspiring global coexistence, compassion, mutual care, understanding and a reverence of life, by fostering awareness that we are all connected by one human spirit. Magical Moments around the World is dedicated to showing that all humans share a unique spirit connecting us all. It is also dedicated to spreading light in ourselves and others. Envision a world that is guided by compassion and respect. By reading other peoples magical moments we become aware that our happiness is connected to other people's happiness. We see that others' desires for happiness are the same as mine. In its essence the project aims to provide youth the right to be aware that we are all connected by one human spirit. This is done by writing magical moments in a global online book that will be presented in a multilingual website. The writing of the book will be on an ongoing basis for generations to come. In this way one big book is created by the people for the people. A book that depicts the human spirit.
